

Nakusp IPMA Invasive Plant (Terrestrial and Riparian) Priority List – 2016.

This table is updated annually – contact CKISS for most current version. (* not known in CKISS region; BC=biocontrol)

Provincial Prohibited EDRR WATCHLIST – Prohibited species for BC. Provincial government takes lead role in treatments. Report these species through Report-A-Weed app.		
<ul style="list-style-type: none"> - Black henbane* - Common crupina* - Common reed* 	<ul style="list-style-type: none"> - Dyer’s woad* - Mouse-ear hawkweed - Perennial pepperweed* 	<ul style="list-style-type: none"> - Squarrose knapweed* - Syrian beancaper* - Velvet leaf* - Yellow starthistle*
Regional EDRR WATCHLIST - Not currently known in this IPMA (and may also not be known in the CKISS region*). Follow EDRR reporting and action protocols. Bolded species are EDRR for the province.		
<ul style="list-style-type: none"> - Bighead knapweed - Buffalobur* - Caraway* - Coltsfoot - Common bugloss* - Field scabious - Flowering rush* - Garlic mustard* - Giant hogweed 	<ul style="list-style-type: none"> - Gorse* - Greater celandine - Greater knapweed - Hoary cress - Leafy spurge - Longspine sandbur* - Nodding thistle* - Plumeless thistle* - Puncturevine* 	<ul style="list-style-type: none"> - Rush skeletonweed - Russian knapweed* - Scotch thistle - Tansy ragwort - Teasel - Wild chervil - Wild Four O’Clock* - Wood sage*
ERADICATION or ANNUAL CONTROL – Species known in IPMA but with very limited distribution. Enter inventory data, report and treat or monitor annually.		
<ul style="list-style-type: none"> - Containment species outside lines 	<ul style="list-style-type: none"> - Baby’s breath - Blueweed 	<ul style="list-style-type: none"> - Marsh plume thistle - Policeman’s helmet - Yellow flag-iris
CONTAINMENT – Enter inventory data, report and treat all sites outside containment lines. Some of these species have biocontrol (BC) available which can be used within the containment line.		
<ul style="list-style-type: none"> - Himalayan blackberry (contain to Nakusp) - Hoary alyssum (contain to Nakusp) - Meadow/brown/black knapweed (contain to Nakusp IPMA) 	<ul style="list-style-type: none"> - Knotweeds (contain to sites that do not border natural lands, transportation corridors, or riparian areas) - Purple loosestrife (contain to Fauquier) - Scotch broom (contain to Nakusp) 	<p>Contain to gardens:</p> <ul style="list-style-type: none"> - Butterfly bush - Cypress spurge - English Ivy - Field bindweed - Goutweed - Japanese butterbur - Lamium/Yellow archangel - Russian olive - Periwinkle - Salt cedar - Siberian elm
ESTABLISHED (BIOCONTROL OR SITE-SPECIFIC APPROACH) – Widespread species that are beyond landscape-level control or have relatively low impact. May have biocontrol (BC) available. Treat based on specific land management objectives.		
<ul style="list-style-type: none"> - Bull thistle (BC) - Burdock - Canada thistle (BC) - Chicory - Curled dock - Dalmatian toadflax (BC) - Dame’s rocket 	<ul style="list-style-type: none"> - Diffuse knapweed (BC) - Hairy cat’s ear - Hound’s tongue (BC) - Mullein - Orange hawkweed - Oxeye daisy - Scentless chamomile 	<ul style="list-style-type: none"> - Spotted knapweed (BC) - St. John’s Wort (BC) - Sulphur cinquefoil - Wild carrot - Yellow hawkweeds - Yellow/common toadflax
INSUFFICIENT INFORMATION – There is a lack of information on the distribution, impacts and potential for spread and/or control of the following species. Some of these species may appear in other categories (since their distribution is relatively well understood) but they also appear in this category because further information is still required.		
<ul style="list-style-type: none"> - Black locust - Common tansy 	<ul style="list-style-type: none"> - Himalayan blackberry - Policeman’s helmet 	<ul style="list-style-type: none"> - Wild carrot/ Queen Anne’s lace
